List of CCCME Key Members

商会重点会员名单

Founded in July 1988, China Chamber of Commerce for Import and Export of Machinery and Electronic Products (CCCME) is a self-discipline and nationwide trade organization, formed jointly and voluntarily by various economic organizations registered in accordance with the laws in the People's Republic of China and engaged in import and export of machinery & electronic products and related activities. Now it has more than 7,000 members.

According to the provisions in Article 56, Chapter 9 of the Foreign Trade Law of the People's Republic of China revised in 2004, the mission of the Chamber is to provide services in such fields as the production, marketing, information and training related to foreign trade, conduct coordination and self-discipline, propose the application for relevant foreign trade remedy measures, safeguard the interests of its member enterprises and the industry as a whole, reflect the suggestions related to foreign trade from its member enterprises to the government departments concerned and implement promotional campaigns of foreign trade.

Legal Assistance 法律援助

The Legal Service Centre of CCCME, with 20-year experience in responding to cases of unfair trade, represented Chinese enterprises to defend in over 100 cases launched by countries and regions around the world including the US, European Union, South

America and Africa and provided free legal consultations and assistance for Chinese companies hundreds of times concerning such issues as international trade contract dispute etc. The Centre, consisting of professionals with educational background of legal science, foreign trade and qualifications of lawyer and CPA, has established close cooperative mechanisms with dozens of high-end and leading global law firms as well as the legal departments of more than 20 member enterprises at the state level. Jointly with its global partners, CCCME Legal Service Center assists its member enterprises to deal with global trade friction and technical trade barriers and provides professional service in legal consultation and debt collection.

Exhibition Service 展览服务

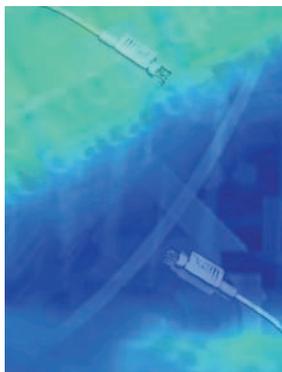

Since 1994, CCCME began to take the responsibility of organizing the Machinery and Electronic Hall of China Import and Export Fair (Canton Fair), establishing a good and convenient platform for its member enterprises to improve their brand image and increase sale volume. CCCME is mainly in charge of the following issues in the Machinery and Electronic Hall of Canton Fair:

- Recheck qualifications of the exhibitors
- Evaluate qualifications of applicants for the Brand Exhibition Zone
- Work with China Foreign Trade Centre(CFTC) to arrange booth location
- Conduct statistical analysis and research on industry
- Strengthen IPR protection and quality supervision
- Work with departments concerned to strengthen booth management
- Assist the co-organizers to complete booth construction
- Assist to invite purchasers as requested by the Organizing Committee of the Canton Fair

CCCME led Chinese enterprises to participate in international exhibitions abroad. Till now, it has already held or participated in more than 500 large international professional exhibitions in more than 50 countries and regions, covering a total exhibition area of over 100,000 square meters and winning the leading place concerning its organizing ability and exhibition scales. CCCME maintains good cooperation relations with the world's leading exhibition companies and works as the China agent of many international well-known exhibitions. CCCME could also provide assistance to exhibits in applying for government financial support, such as the fund for SMEs and fund for non-commercial exhibitions etc.

CCCME's Brief Introduction 商会简介

Technical Service

技术服务

Technical Service Center of CCCME established close strategic cooperation relations with China's authoritative organizations for standardization as well as internationally renowned testing organizations and labs. It provides technology information to its member companies, including certification, standardization, inspection and testing, and technical regulation in foreign countries, and also assist Chinese companies in going through procedures for certification, inspection and testing. Technical Service Center of CCCME has its own website as the servicing platform and follows the guideline of assisting scientific development and innovation as well as serving standards and certification. CCCME Technical Service Center could provide various services to Chinese enterprises such as early warning of technical barriers, search on standards at home and abroad, certification in China and abroad, market research and information collection and other related technical consultation.

Training Service

培训服务

CCCME Training Center organizes various training classes specifically on international market as well as hot and difficult issues among member companies during their business operation. It cooperates with authoritative organizations in China to organize government foreign aid training programs for the

officials from developing countries. Training classes are set based on the needs of foreign officials and follow-up feedbacks are also collected after the training.

International Relations

国际联络

CCCME maintains close relations with more than 200 chambers of commerce, associations and trade promotion organizations around the world, pushing forward trade and economic cooperation between its members and their foreign

counterparts by regularly exchanging information, organizing marketing research and business delegation abroad and jointly holding business seminars etc. Besides, CCCME already established a regular contact mechanism with more than 80 foreign embassies in China so as to help member companies explore communication with foreign partners and enhance their international awareness. In recent years, CCCME organized more than 20 trade promotion delegations abroad attended by thousands of Chinese companies and held a series of trade promotion events each time during the visit,

enhancing the cooperation and exchanges between Chinese companies and their counterparts in a great extent. As the Secretariat of China Russia Chamber of Commerce for Machinery & Electronic Products (CRCCME) initiated by the Head of the State of both countries, CCCME made great efforts to deepen cooperation between China and Russia in machinery and electronic

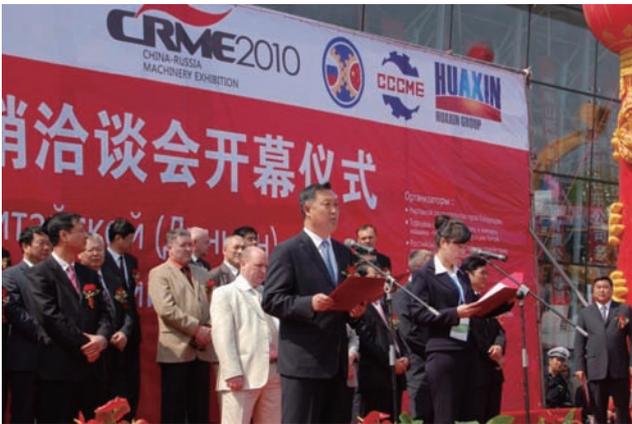

sector, extended bilateral trade of machinery and electronic products and enhance concrete cooperation between Chinese and Russian companies. Great achievement has been made concerning the cooperation between the two countries in the sector of civil aviation, ship building, construction machinery as well as energy equipments etc.

Information Service and Network

信息咨询与网络平台

CCCME provides personalized and diversified services to its members through its website, print-out and electronic magazines, on-line services and e-commerce. CCCME Journal and Customs Statistics Analysis of Import & Export of Machinery and Electronic Products are published each month, and CCCME Daily News and CCCME Industrial News are sent to its members by email weekly or biweekly. CCCME also provides data and analysis on the import and export of specific products in major countries and regions and, in the meantime, offers support and consultation to its members on their concerning issues. By establishing a new and comprehensive network service platform and increasing its service items, CCCME will help its members easily get services free of charge by logging on its website and conduct e-commerce by using CCCME resources so as to strengthen their competitive advantages in the market.

Friendly Exchanges 商会重大对外活动

On May 16, 2010, Sino-Russia (Dongning) Machinery Exhibition was jointly held by CCCME, Heilongjiang Provincial Government and CRCCME in Dongning, located in China-Russia border of Heilongjiang province. CCCME President Zhang Yujing addressed the opening ceremony of the exhibition.

CCCME and Detroit Chinese Business Association jointly held SINO-US Investment and Cooperation Forum & Contract Signing Ceremony in Detroit, US on May 30, 2010.

Friendly Exchanges 商会重大对外活动

CCCME President Zhang Yujing attended China-Brazil Trade and Investment Forum & Business Talk and delivered a speech.

On June 1, 2010, SINO-US Investment and Cooperation Forum on New Energy was jointly held by CCCME and Peregrine Travel Group in San Francisco, US. CCCME Vice President Yao Wenping delivered a speech on the forum.

On May 19, 2010, Sino-Austria Economic and Trade Cooperation Forum & Contract Signing Ceremony was jointly held by CCCME and Austrian Federal Economic Chamber in Vienna, Austria.

CCCME Vice President Wang Guiqing met with representatives of Beijing office of GTZ and Business Social Compliance Initiative (BSCI).

CCCME and Argentina China Chamber of Commerce CAPECHI jointly held China-Argentina Trade and Investment Promotion Forum. The picture shows CCCME President Zhang Yujing shakes hands with Mr. Raúl S. Loeb, vice-president of Argentine Chinese Chamber of Production, Industry and Commerce at the forum.

On June 17, 2010, China Vice President Xi Jinping paid an official visit to New Zealand. Seminar on New Zealand-China Free Trade Agreement was successfully held by MOFCOM and Ministry of Foreign Affairs and Trade of New Zealand in Auckland. CCCME, New Zealand China Trade Association (NZCTA) and New Zealand Trade & Enterprises (NZTE) co-organized the event. CCCME Vice President Yao Wenping delivered a speech on the seminar.

CCCME organized Chinese companies to respond to expiry review initiated by EU of anti-dumping measures applicable to imports of certain bicycles originating in China

我会组织企业应对欧盟自行车反倾销日落复审

CCCME organized Chinese companies to respond to expiry review initiated by EU of anti-dumping measures applicable to imports of certain bicycles originating in China

On July 19, 2010, CCCME convened a working conference to respond to expiry review initiated by EU concerning certain bicycles from China. Current situation concerning the expiry review was briefed and the measures to be taken were discussed at the meeting which was attended by ten major bicycle exporters. Working principles to cope with the case was also determined at the meeting. The participating exporters finally reached a consensus that, with the support of the government and under the organization of CCCME and other trade associations, they would unite together and would not hesitate in responding to the case in an active way.

CCCME led enterprises to attend the hearing in EU in connection with anti-dumping proceedings concerning certain aluminum road wheels

机电商会带领企业赴欧参加铝车轮反倾销案听证会

On July 14, 2010, upon the application of CCCME, European Commission convened in Brussels a hearing in connection with the anti-dumping proceedings concerning aluminum road wheels originating in China. CCCME and representatives of enterprises in question attended the hearing. At the invitation of the industry, officials from Bureau of Fair Trade for Imports and Exports of the Ministry of Commerce also attended the hearing which was already the second

one concerning this case upon the application of CCCME.

Officials of European Commission in charge of this case attended that hearing and heard the respective presentation by representatives on our side. Besides strong argument against unreasonable factors in the preliminary ruling such as the choice of the substitute country, representatives on our side argued from 6 perspectives, focusing on the fact that the development of export of aluminum road wheels from China meets the need of European industries, the unfavorable situation of European industry was caused by financial

crisis and import from third countries. Although no comments were given from officials of European Commission on the hearing, they said that they would consider the argument of all parties in a comprehensive way and render the final ruling in early September.

CCCME organized enterprises to cope with expiry review initiated by EU of anti-dumping measures applicable to imports of certain hand pallet trucks originating in China

机电商会组织企业应对欧盟对我手动液压搬运车反倾销日落复审

On July 20, 2010, European Commission issued a notice of the initiation of expiry review of anti-dumping measures applicable to imports of hand pallet trucks and

parts originating in China (that is to determine whether or not to withdraw the anti-dumping duty), which falls within the CN codes ex 8427 9000 and ex 8431 2000. The original investigation was initiated in 2004 and the definitive duty rate determined in 2005 was 7.6%-46.7%.

CCCME will lead the companies concerned to work actively towards this expiry review so as to safeguard the fair trade rights and interests of our enterprises.

CCCME organized Chinese companies to deal with anti-dumping investigation initiated by EU concerning WWAN Modems originating in China

机电商会组织应对欧盟数据卡反倾销案件

On June 30, 2010, European Commission initiated anti-dumping and safeguard measures investigations against WWAN modems originating in China, with a total value of USD 4.1 billion. Two working conferences in responding to the investigation were held respectively on July 5 and July 21. Major exporting enterprises including Huawei Technologies Co., Ltd, ZTE Corporation and Compal Network (Kunshan) Co., Ltd. as well as lawyers concerned attended the meetings. Due to the limited time and pressing task in replying to the questionnaire, CCCME suggested that the enterprises should make a systematic plan, making full use of rules and various channels while enhancing coordination between different departments, so as to carry out the plan step by step.

Exhibition 展会

The Exhibition Center of CCCME is responsible for the organization and implementation of all types of exhibitions in machinery and electronic sector at home and abroad as well as the Machinery and Electronic Hall of Canton Fair, helping a large number of SMEs to expand their business horizons and enter into the international market. Since 1989, CCCME began to organize Chinese companies to hold or participate in international professional exhibitions and gained rich experiences. Up to the end of 2009, CCCME has already organized Chinese companies to hold or participate in more than 500 large international professional exhibitions in more than 50 countries and regions, covering a total exhibition area of over 100,000 square meters.

Some photos taken in the major exhibitions held or participated by CCCME are as follows:

On the International Hardware Fair Cologne 2010, exhibitors organized by CCCME have a business talk with foreign visitors.

Top Security Buyers and Top China Security Suppliers Meeting in ISC WEST 2009, Las Vegas, USA

On the International Electrical, Energy and Automation Industry Trade Fair held in 2009, exhibitors from Shandong Electric Power Design Institute introduce their institute to representatives of Brazilian Electrical and Electronics Industry Association (ABIEE).

Exhibitors from SUMEC Machinery & Electric Co., Ltd. introduce their export products to the representatives of ABIEE.

Representatives of ABIEE talks with the exhibitors organized by CCCME.
